An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Newly submitted claims 27-29, 36, and 38 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:

Claims 27-29, 36, and 38 are all directed solely at the embodiment comprising a blade with a spine which was not an embodiment presented for examination in the original claims.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 27-29, 36, and 38 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

This application is in condition for allowance except for the presence of claims 27-29, 36, and 38 to an invention non-elected without traverse. Accordingly, claims 27-29, 36, and 38 have been cancelled.

In claim 37, line 1, "35" has been replaced with --32-- to correct a claim dependency.

Because claims 32, 33, and 37 are dependent on a claim generic to the spine embodiment they are in condition for allowance.
